Administration

Dear Students:

Learning presents a never ending challenge to each of us throughout our entire life. There is always a great deal more to learn.

High school offers students the opportunity for specialization as well as basic learning. It is my sincere aim for Fatima High to make available to each student an excellent academic education as well as various opportunities in vocational learning.

This year the Fatima Planned Progress won the second place award of \$100.00. This brings the total winnings up to \$1450. The project which the team selected to work on this year was "Promoting the Historical Assets of the Community." There are ninety schools throughout the State who participate in the Planned Progress Program. Fatima High School is the only school that has won an award every year for the past seven years. The Planned Progress Program for high schools is sponsored by the Missouri Power and Light Company.
